E. Notices

- The poster will be printed out by the Office of Graduate Student Affairs with no additional costs.
- The contestants are expected to present your poster at indicated time. The contestants must be in attendance, which might affect your score in the contest.
- The poster may contain the information that has been presented at other meeting or conference. The poster can't contain the same content previously used in this contest.
- The same poster could not be submitted for both Group A and Group B contest. If doctoral contestants don't pass the initial selection in Group A, they could use the same poster to enter the Group B contest. The contestants should complete the online registration before the deadline.
- All research ethics and copyright regulations should be followed. Direct translation or plagiarism of the research paper is not permitted. All citations must be indicated the source clearly.

Poster Guideline (Submission deadline: Apr. 27th, 2023)

- Posters must be A0 Size (840mm*1200mm) with portrait layout.
- Posters should include title, author's names and affiliations.
- Posters should include the following sections: Introduction, materials and methods, results and conclusions.
- The poster should be submitted in PDF format. The filename should be “**Student ID-Department-Name**”. Please upload the file in <https://reurl.cc/klqLqq>.

1. On the **Design** tab of the Ribbon, locate **Slide Size** in the **Customize** group, near the far right end of the toolbar.

2. Select **Slide Size**, and then select **Custom Slide Size**.

The **Slide Size** dialog box opens.

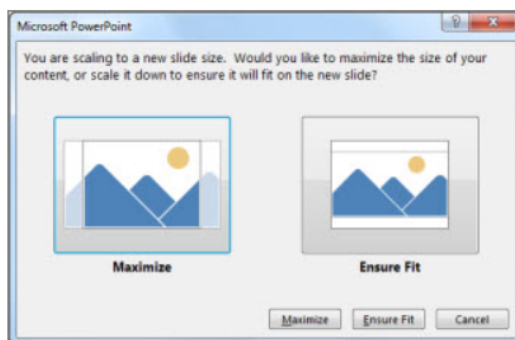

3. In the **Slide Size** dialog box, ensure the orientation is set the way you want it.
4. In the **Height** and **Width** boxes, PowerPoint accepts measurements in *inches*, *centimeters*, or *pixels*. Type a number followed by a space and then the appropriate abbreviation: *in*, *cm*, or *px*.

PowerPoint then converts measurements, if necessary, to the type of unit your operating system uses.

5. Click **OK**.

When PowerPoint is unable to automatically scale your content, it prompts you with two options:

- **Maximize:** Select this option to increase the size of your slide content when you are scaling to a larger slide size. Choosing this option could result in your content not fitting on the slide.
- **Ensure Fit:** Select this option to decrease the size of your content when scaling to a smaller slide size. This could make your content appear smaller, but you'll be able to see all content on your slide.

You can change the unit of measure that is shown in PowerPoint dialog boxes if you like.
